Paul Schmidt was great to work with, very competent and trustworthy. AMEK did not nickle and dime us on areas that were marginally outside the contract, even upgraded some material at no additional cost. Very happy with the quality and appearance of the stucco replacement, great match with areas that were not replaced.

Their expertise was the strong point. They really seemed to know what they were doing and how to solve issues. They were able to resolve any issues we had.

We were very satisfied with the initial design and planning process. We are also very satisfied with the overall quality of the work. As a completed project, it is certainly a kitchen remodel that AMEK can be proud of. It was fun to show it off at the Remodelers' Showcase and our cocktail party. Thanks again!

I would consider AMEK for a future bath and kitchen remodel a couple years from now.

The design the architect put on paper is what I look at everyday that I am in my new space. It came to life and I absolutely love it!
