My kitchen/living room remodel experience with Advantage Remodel was top notch! They worked with me to design a space that fits my needs. The communication and follow up was fantastic. I always knew what was scheduled and what to expect during the whole process. Finally, the team on the ground was very easy to work with and friendly. Highly recommend!

This was our first experience with using a company for a large remodeling project. Everything with our project went very smoothly, all of our questions and concerns were addressed and we had a copy of the calendar so knew what was going on and when to expect the different steps. Everyone we met from the company was very polite and courteous as well as their trade partners. They took precautions to keep the mess at a minimum and cleaned up the worksite daily. We felt at ease having Advantage Remodel help us with our project and trusting them with our home.

Our experience was terrific! This was our 4th remodel of a room in our house, and Advantage Remodel was so much more professional in the way they conducted themselves and really did a fantastic job.

After a thorough search and review of home remodeling companies we selected Advantage Carpentry & Remodeling to renovate our kitchen. After years of trying to upgrade our home on our own we were very happy to go with a professional. The staff at Advantage Carpentry is extremely professional and does first quality work. The on-going theme was if there is anything we're not happy with just let them know and they will do their best to resolve the issue. And they were true to their word. They provided great design ideas, did great work, cleaned up each day and were very easy to work with. In fact we ended up remodeling the entire first floor in addition to the kitchen. I would definitely recommend Advantage Carpentry to anyone looking to select a professional for a home remodel project.

Our experience with Advantage Carpentry was great. We had a rush remodel request and Andy did his best to coordinate with his team to meet our compressed project timing. The team that he had work on our home were extremely professional, clean and talented. Our 60's era ranch had several curious items that were uncovered during demolition and the Advantage Carpentry team was able to work through the items and it resulted in a great quality renovation.

Andy and Gwen, the kitchen designer, came up with a marvelous plan to make a small kitchen and dining room into a spacious unified room. They followed through in a timely fashion, despite the usual small issues that arose, and Andy was true to his word that any problems would be resolved to our satisfaction. Other than some concerns with the flooring contractor, we were highly satisfied with the workmanship of his own crew and the contractors he brought on board for the job. We marvel every day at the final outcome.

Advantage Carpentry & Remodeling was very professional. They did exactly what we asked them to do. There was no pushy salesmanship. They listened to us and did exactly what we wanted them to do. They used quality materials and followed codes and building practices to the letter. They produced an excellent product that we are proud to show to our family and friends.

We can't say enough about the Advantage team. Andy was wonderful to work with and went to great lengths to see that every question was answered, every request met. We received real time updates on every aspect of our master bath project as well as helpful recommendations on materials and layout. We went from having a ton of unused bedroom space and three tiny closets to an amazing master suite. We were blown away by the end result; it exceeded every expectation.
