Dec 31, 2016

David Bryan would not call me back when I left messages on his cell phone or his answering service

I think Advantage Window and Door is a very professional company, especially Dave. I've been satisfied with their work and I've ordered from them twice.

I have been in customer service all my life and everyone I encountered provided above and beyond customer service. Even when things weren't perfect, they were able to approach the situation in a polite, professional manner to resolve any concerns and questions that I had!

Dave basically helped us in a very difficult situation. He pulled through in several different ways for us and we appreciate it very much!
