I am thoroughly impressed with how meticulous my Bryton's Installer, Derek Eatmon was with my bathroom project. He started the job on time and finished on time! Every detail had to be perfect by Derek, so perfect that my wife could not resist giving him a hug when the job was completed. We have another project that we are considering and I will request only Derek if we decide to start. If all of Bryton's employees are like Derek, then you really have a very special company!

Oct 21, 2018

This is the second time I have used Brytons for a bathroom remodel. This one was more extensive with a basic gut of the room and moving all of the plumbing. My installer was Bryan Wilson and he was wonderful. The reasons I will give him a 5 star review are the following: He listened to what I wanted and gave great advice on how we could do it, he was always on time, he was so neat and always cleaned up at the end of each day, he worked long hours to complete the project on time, which was difficult because the job took longer than the sales person realized. One final note, I have two old dogs and one wants to wander into the work area and Bryan always looked out for him when he got out of my sight. He was very kind to him. I will continue to recommend Brytons because of Bryan's work. Eleanor Everett

Mar 05, 2014

I was skeptical at first because I wasn't sure about the work. As I watched the advertisements my confidence increased, and the work was much better than I thought it could ever be.

I was most satisfied with the time efficiency, it was wonderful.

The young man that did my work, I think his name was Bryan, he deserves a ten plus. Anybody who can do what he did in two days by himself deserves a ten plus and a raise.

John was awesome. He took his time explaining everything and how he had to do the project. He was very informative of the process. He didn't brush me off and kept the mess to a minimum. My dad is a carpenter, so I know what a good job and a bad job looks like.

Riley. He is a hard worker and meticulous in every detail. He was always sure to check with me beforehand if there was any question as to how something should be done. His work was excellent. And he is also a very nice guy and very professional. Brytons would do well to do whatever it takes to keep him in their employ.
