We love our home built by Camerata Homes! The owner Jan Knibbe was amazing to work with. The attention to little details throughout the house are really nice. The build quality is top notch and the overall design is very modern and comfortable. We've been in our house for one year and would not hesitate to work with Camerata again.

Very happy with our home built by Camerata Homes. Jan was a pleasure to work with and never seemed frustrated with our ideas. You can tell he wants to make your new home perfect for YOU! Not just a cookie cutter design. Our home is stunning and the build quality is excellent. Lots of beautiful, thoughtful touches throughout. Would highly recommend Camerata to friends and family looking to build a custom home.

We got them through HomeAdvisor. The customer service was really good. They wanted to make sure we were happy. They covered all of the bases and gave many options of what we could do. Doug laid it out better so that I was happy. We were on the same page through the whole thing. He suggested special architectural features such as a set of shelving on an empty wall. He was constantly coming up with little features like that with no cost. It was already included in the quote. I was really happy about that.

Jan Knibbe and the staff at Camerata were awesome! Thank you Jan, Steve, Kim, Doug, and Joyce! I know home building can be stressful, but that was not the case working with Camerata. Couldn't ask for a better team and project manager, Steve Smith is the best! Always available and quick to respond to ALL requests! Our home turned out better than we could have imagined. Thank you!

This is from Cathy S. of Denver, CO. Camerata Homes purchased the 115 year old home, and gutted the home, complete with a new sewer line. They finished it and we are very satisfied with it. We had no construction headaches, as we purchased the home after it was completed. There were several items on our inspection objection, that Camerata Homes addressed completely, as if it were a new build. The trade off for this convenience is that we did not get to pick any of the finishes. A year later, everything still functions properly, it looks great, and we love our home/neighborhood. I would definitely recommend them to a friend!

They did a great job completing our home after the initial builder went bankrupt and we had them finish our basement as well. Very professional and high quality work.
