Good communication, good collaboration along the way. Creative suggestions helped improve the original plan. We kept an eye on the budget together. Couldn't be happier with my sunroom!

We got our basement remodeled recently through CastleHaven Construction. Alan Pollock of CastleHaven proved that we made the right decision in choosing them over other construction companies. He was available on weekend or in weekday evenings to fit our schedule - for estimation and other initial discussions before the project started. He was always available on phone/text or email to answer our questions - never did we feel that we were being ignored. As the project progressed we knew we could always count on him if anything went wrong. Because he always made sure that things were fixed in timely manner. We had good experience with contractors that his company hired - for electrical/plumbing/painting work. We would highly recommend CastleHaven and Alan for their honesty and good work ethics.

GUILDMEMBER SINCE 2016

As a GuildQuality Guildmember, CastleHaven Construction relies on our customer surveying to help them deliver an exceptional customer experience.

CastleHaven did a very good job on our house remodeling project. It involved all parts of our house (all 4 floors with various modifications, 4 bathrooms, and kitchen) and we're very happy with the finished work. In particular Adam (owner) was a pleasure to work with and I always felt like he was trying to do the right thing on our behalf, even when he had to make a financial concession to make up for an issue. I'd be happy to serve as a reference.
