Caviness came highly recommended to us, so when we decided to "go for it" and build a pool they were the ones we called. We have not been disappointed. Their attentiveness and attention to detail have been first rate. It is obvious that everyone on their team is dedicated to not only building a quality pool, but creating a beautiful outdoor oasis for our family to enjoy.

We love our pool! It is a one of a kind and beautiful. I highly recommend Caviness for all your landscape needs. The details, the work, the heart that goes into the building of our pool was awesome. I can even call Kelly years later and ask him anything and he is right there to help!!!!
