I was most satisfied with how through they are and explain what they are going to do, so there are no questions. They tell you what they are going to do and what you are going to get. If they ask for something they tell you how it would be better so you get quality work.

Thank you, Sylvia. Patricia keeps a similar record of each customer satisfaction level. Reading your opinion on guildquality.com gives me total peace of mind that Creative Glass is striving to meet or exceed your satisfaction on every level. I wish to set standards high enough for the local industry to follow those standards some day.
