We contacted Design Build after experiencing a major water damage to our home. Mark immediately took a proactive approach in dealing with our insurance company, guiding us through the process with expertise and clarity. Design Build was quick to initiate construction and kept the lines of communication open with easy access to the various sub contractors. They were a respectful, competent and kept our home as clean and orderly as might be expected. We are happy to recommend Design Build for any construction/building project.

Mark and his team did a phenomenal job on a major lift and entire remodel of our home. They were on time, on schedule, while communicating weekly with us using a very organized project timeline. I would highly recommend Design Build Specialists to anyone doing a major project.
