Jenny and JJ were great! From the beginning they helped us with every decision on our home and provided great insight making selections. Anytime we had a question or concern they were quick to address it and come up with a solution.

There hasn't been anything that I haven't been
satisfied with. Their personability towards their
customers would be their best attribute.

We just want to thank Epic Homes for building our
first custom green house. Our home is truly Epic and
we could not be more happy with the outcome !!! I
would refer Epic Homes to anyone that is looking to
build a custom green home.

Epic Homes built us an amazing house and we are so happy that we chose Epic Homes to build our very first custom green home. Jenny and JJ are wonderful people to work with and they have a great staff behind them that will do anything to make sure you are satisfied. The project manager David is extremely knowledgeable about the entire process and he worked very hard to make sure our home was built to our satisfaction and on time. I could go on and on about how wonderful this company is. Thank you Epic Homes for building us an Epic house !!!

They went above and beyond my expectations! They saw things to correct that I didn't notice. I highly recommend them as builders. The fact that they build government rated Energy Star rated homes is a bonus. This rating played a big part in our loan appraisal to say nothing about the wonderful efficiency of our house HVAC.

Details. Jenny is so organized. Every item is discussed and signed off. When there are changes she writes them up and we sign off. Everyone has a notebook and all pages are added. No guessing games or ". He said she said"
