My salesperson and my contact person were always available and answered any questions effectively and quickly. They scheduled my roof, gutters and wrapping. Our roof was done in one day! They have an extremely hard working and efficient team that comes in and does a beautiful job and the weather was not optimal at all. Then they have another team that came in and did the gutters for us and another for our wrapping. Never a mess left behind and all their contractors are very polite and nice to deal with. They dealt with my insurance company for me so I had none of the headache. I have already recommended them to another friend and would use them again anytime!

Equity Restoration installed a beautiful replacement roof in less than one day. The home owners insurance process did take a lot longer than I expected but was well worth the wait overall since my new architectural style roof is rated to last 20 plus years. Highly recommend Equity Restoration overall for their professional and courteous customer service to anyone looking for new replacement roof installs. Thanks Equity Restoration for a job well done!!!

When they first came and took a look (there were different stages of my roofing as we added rooms, etc.), I only thought the front needed a new roof. Jeremy checked it all out and when he came in and showed me what he had done and gave his assessment, it was very exciting. I was very, very happy. He answered all my questions. Whenever I called and asked for more information, he always called me back. He has been terrific and is quite a great person.
