Exceptional Exteriors never posted building permit on my house so I don't know if they actually took one out. They kept promising me final inspection (3 or 4 times) but never provided either. Didn't do what they promised so I am not sure anything they said is true. Not good experience. Would not use again.

GUILDMEMBER SINCE 2016

Comment from Exceptional Exteriors, LLC

At Exceptional Exteriors we strive to provide the highest quality service and we always uphold our commitments. In the case of this particular project, the work was properly permitted, and copies of the permit as well as the final inspection were provided on multiple occasions to the HomeOwner. The warranty in place is in fact for 50 years as was represented. This warranty information was also conveyed to the HomeOwner.

We have surveyed customers on behalf of Exceptional Exteriors, LLC in Denver, CO; Aurora, CO; Lakewood, CO; Arvada, CO; Fort Myers, FL; Golden, CO; Highlands Ranch, CO; Littleton, CO; Castle Rock, CO; Englewood, CO; and 38 other cities in Colorado, Florida and Pennsylvania.

We were very happy with everyone we worked with at Exceptional. Anthony, project leads, crew, billing and service have been the best I have seen from any roofer/construction company in many, many years! This is the company you want working for you. I recommend Exceptional Exteriors highly. Thank you for making the experience easy with "exceptional" quality. Thank you, Patrick Smith

Not happy with the financial side of things. We were told we had to pay one amount and then got hit with a bill much higher than that on top on the over \$10k we had to pay. They also processed payments out of our account without authorization. I feel like we were lied to and scammed out of money we shouldn't have had to pay.

Comment from Exceptional Exteriors, LLC

Hello, your out of pocket expense was the same as on your contract. We did supplement insurance for code items they did not include on the original scope. Insurance did pay for those items. We never process payments without permission. If you feel your final payment was processed without your knowledge, please contact me directly at 303-386-4649. Thank you, Francesca

Aug 29, 2018

Due to the extent of the hail storm that caused much widespread damage to cars and roofs, I was able to get an up close look at some of the workmanship of some other companies and was blown away with the quality of Exceptional Exteriors work. The workers doing the installation of my roof were courteous and worked well together and kept the timeline going. The area was actually left cleaner than when they started. Great company!

Jul 17, 2018

Exex is a quality company, employs professional people, who are a pleasure to work with. My project was completed to my absolute satisfaction. In the event that I may need such work again, I will call again. I will gladly recommend them to anyone who may be in need of these services, in fact, I already have. My roofing on my home and gazebo were damaged in a recent hailstorm. Exex used Owens Corning shingles, and were able to offer a nice light grey shingle that coordinates beautifully with my home colors. Exex's phone number will remain in my phone directory! Evelyn L. Feb 10, 2018

I would recommend Exceptional Exteriors to anyone who has time for and enjoys following up multiple times on project progress and to anyone that doesn't need their work completed in a timely manner. It is not clear to me how a roofing company can fail a roofing inspection on a laundry list of items, but with Exceptional Exteriors, it can happen.

Jul 06, 2017

Great experience! Nobody wants to be in the position to need a new roof, but Kyle was incredible in terms of working with my insurance company, thoroughly explaining and exploring all the options for our new roof, and following through with all commitments. Exceptional Exteriors isn't a bargain basement company, but more than delivers value for the money. And has fairly priced goods and services. The new roof looks great and our new ridge vents have already paid for themselves in terms of heat dissipation and comfort inside the house.
