We liked the fact that we could hire one company to do all of the work we wanted done.

The response you gave to little items that needed to be fixed. You were quick and agreeable.

I would recognize Mike, the one who came around right after the storm.

I had questions regarding the finished job and Mike was very willing to work with me as we discussed my concerns, even offering to bring in the shingle company's representative.

I mostly appreciated Mike's knowledge about the roofing projects, his recommendations for preventing future ice dam damage and his follow-up. In contrast, the rep from the "big" local re-roofing company didn't offer suggestions, didn't follow up with questions concerning my bid, etc. As a result, I ended up going with Mike, despite the fact that his bid was more expensive than the competition.
