★★★★★
Great quality and wonderful people to work with. They caused a few project delays because they're understaffed, but the end result was exactly what I hoped for.

They were a pleasure to work with. I wish I had chosen a higher quality material for my cabinetry, but the company held up their end of the bargain. You do get what you pay for, regarding materials, but overall I would choose to work with this crew again.

Graham Construction did a great job with my project. There were some unexpected issues that had to be addressed ultimately increasing the cost of our project; however, it was a safety concern and had to be resolved. Overall I am happy with my experience and would recommend them to my family, friends, and neighbors.
