Overall, we couldn't be happier that we entrusted our living room/fireplace remodel to Homework Remodels. It couldn't have turned out any better. They delivered exactly what we wanted, and it's truly the centerpiece of our home. Every family member and guest we've had marvels at the lighted, built-in cabinetry and the quality stonework on the fireplace. We're really proud of it and can't thank Steve Shinn and Homework Remodels enough.

Homework Remodels planned and executed a full remodel of an older home on a very tight schedule. Their knowledge and experience were obvious, and led to a very satisfactory result. As we could not monitor progress daily, they were very good at keeping us in the loop. If we had concerns, they were addressed quickly and appropriately. The quality of the work and their ability to maintain schedule was impressive. We highly recommend Homework Remodels.
