I was most satisfied that it was very simple to get information, to find exactly what I wanted and the delivery people were beyond phenomenal. They had to do a lot of crazy install things to make it work!

Price matched Lowe's and they included a few items with installation that Lowe's did not - new water hoses and new electrical connectors. You would have to pay additional for these items at Lowe's

Were in and out quickly. Kieffer folks made the calls to connect with source of new cooktop, and reviewed our knowledge of field fit and electrical. All of that resulted in a flawless and timely installation.

REVIEW

Dave W.
Norristown, PA
Aug 01, 2017

We were able to see floor models, and with Kieffer staff knowledge we were able to make an informed decision. We upgraded to Induction, from electric, and learned quickly how to use the technology. The only issue was needing a new set of cookware.

Comment from Kieffer's Appliances

Thanks for the feedback Dave!

Our contractor recommended Kieffer's Appliances and we are very happy that he did. The price was better than other places and their knowledge of induction cooktops was very helpful.

I recommend they follow up to make sure everything is going as planned. We are very happy with what we received and there were no problems but I feel there should still be a follow up with the customer to make sure everything is in line.

I have been satisfied with all areas but most of all I would have to recognize the delivery/installers.

★★★★★

From the moment we walked into their showroom, we were greeted warmly. Our salesperson listened to what we were looking for and spent the time to insure we had the product we needed, which was successful. Their installers were two teams. They took out our old refrigerator and put in the new one. They took care of all problems onsite.

I was most satisfied with their professionalism. Often times, dealing with appliance people they try to oversell. They were very accommodating, answered all of our questions timely and promptly, and everything they said they would do they did.

Kieffer's did not fall short of our expectations, our sales person is trying her best and has been replying to all of the emails about this frig and it's problems.

REVIEW

Terry C.
Boyertown, PA
Jun 29, 2017

Not very happy with frig. Have it since June 6th and service man has been here twice and still not working properly. I am trying one more time for repairs and if not corrected we need to have new frig, spent alot of money and performance stinks.

COMMENT

Additional Comment
Mar 06, 2017

For the microwave, we ended up using a different manufacturer because of size. I'm not sure if that was Kieffer's Appliances' fault. They had to come back to me with a different solution than the original we had chosen which was disappointing we couldn't go with the original brand.
