David Guthery is a genius and a walking google (nee encyclopedia) of information on plant types, selection, organization, and consummate design. He was very collaborative with me on my major backyard renovation and developed a fantastic plan which his crew implemented with great care and attention to detail. Cannot conceive a better landscape firm, designer, or crew out there. Our healing garden motif and the "rooms" that were created throughout the yard has been a major positive effect on me and my family. Thanks, LandCrafters!

I was very impressed with the work ethic of the crew who worked steadily through 90 degree temperatures without complaint or slowing. The job site was left clean and tools and equipment stored out of the way so we had no trouble getting in and out while they worked.

I was impressed with LandCrafters from the visit with Mike Manke. He listened and answered my questions. He had been with another company when I got acquainted with him. He again demonstrated his skill in creating a design that took my choices, general desire to complete a project that harmonizes with the style and size of our house and our budget into consideration. The crew were skilled and completed the job without delay or problem.

We loved the design presented to us. In addition, the look of the patio was just what we were looking for and the quality of materials was excellent.

★★★★★

We had a small patio installed in front of our property. We are very satisfied with the quality of the work that was done. LandCrafters provided great guidance as to the design and how we should landscape around it. Scott was very helpful and very easy to work with. We made several changes to the initial design that Scott provided and LandCrafters made the changes without any issues. I would wholeheartedly recommend LandCrafters to anyone.

We had been trying to have a nice but small patio installed at our home for about 3 years and had contacted over 10 landscapers. Only about 1/3 of them even returned our calls and the ones who did essentially told us due to the size we weren't worth their time or they just stopped returning calls and emails. We then heard about LandCrafters through my husband's co-worker. When I contacted them they were so attentive and seemed enthusiastic to work with us. We had an appointment set up with David shortly thereafter and he was excited about our job and really made us feel like we were an important customer even though the job was rather small due to us having a city sized lot. They did such a quick & professional job, I couldn't believe it. Our patio is beautiful and we've already used our yard more than we have in the last 3 years and it's only June 1st! Thank you!

Dave Guthery is great to work with - knows his stuff, thinks through so many issues I would have never even thought of, and is easily reachable/willing to communicate. Mario and his crew were great as well - very personable, hard-working, and dependable. Overall very happy with Landcrafters - we had a very, very big project and they pulled it off without a hitch.
