Savage Ellis was absolutely wonderful to deal with, and Michael Heardon was superb. The Safeco leader was also great.

From the very beginning of the hole in the roof from the tree, to the final signed statement of the completed job, it was a wonderful satisfactory experience. If there was anything else to happen, I would defiantly give them a call back to take care of it.

Kelly Long is a great G.C. He and his team took me through a very stressful time with assurance that everything would be taken care of and even better than before the flood. Thank you!

Level Creek Construction and Kelly Long provided an excellent GC service in the repair and renovation of my hardwood floors, carpeting, and kitchen cabinetry resulting from a leak from the hot water line of my dishwasher. I made the call, having never experienced anything like this before, and Kelly and his team came in and took charge. I am very grateful for their quality of work coupled with an impressive work ethic of keeping on schedule and always being there when they said they would!

They are refreshingly dependable and professional. In construction that is rare. They arrive when they say they will. They did the work and cleaned up, and they do not waste your time.
