Our experience with MHx was outstanding! MHx performed stucco remediation/new Hardy Plank Installation/New windows on our home. The entire process (from job quotation to completion) was extremely client friendly and price competitive. The MHx team was great to work with. Their finished work was meticulous. They communicated with us every day letting us better understand the build process and provided a text chain where we could get near instantaneous feedback. They didn't leave the job until all aspects of the job were complete and signed off by us. I would highly recommend MHx.....and would use them in the future without question!!!

MHX was fantastic to work with from the initial estimate discussion to the final finished product. We had a full stucco removal with mold remediation and New Siding. Our Sales Rep, Phil Dougherty was great to work with and answered any questions we had along the way. He was very patient and always got back to us in a timely fashion. We would gladly recommend MHX!

I will highly recommend MHX design! They did a stucco remediation, replacement of all windows and doors at our house. The project manager, Sung is super responsible and communicative. Whenever we have any issues or concerns, Sung will always address it in a timely manner and follow up with it to make sure things are done correctly. Sung makes this very stressful project (large renovation), a much less stressful situation! MHX design delivers very high quality work. Since this is a very large project, MHX designs may not be cheapest, but they definitely deliver high quality workmanship! The job site is always clean and tidy at the end of the day. I will highly recommend MHX if you are planning to do stucco remediation for your home.

The biggest decision we've ever made for our home and we couldn't be happier that we went with MHX. Q, Mark & their team answered every question at every turn, provided options, solutions and constant communication. The service, professionalism and quality of work is unlike any company I've ever used. I would highly recommend to MHX to anyone for their home and will be using them in the future for any additional home remodeling projects.

MHx Designs did an amazing job on our stucco remediation project. We chose Hardie siding as a result of reviewing our options and Q was super helpful in the design process. The project ran like a well oiled machine. All the crews were on time, spent all day doing their specific jobs and cleaned up before they left. Attention to detail was strong and we trusted their ability to remediate all issue areas we had. We have received so many compliments on the project and especially how well it was done. Highly recommend them to anyone and will use them again for future projects.

We were extremely pleased with MHx Designs in terms of quality of work, design, communication, project management, customer service, and overall price. No upselling or sales pitches, just a trustworthy and knowledgeable team doing honest work. We couldn't have asked for a better overall experience, and are thoroughly impressed with the final result.

Outstanding experience with MHx from start to end. It was truly a pleasure working with Q, Mark and Claudio throughout the process. The professionalism and workmanship of the Stucco Remediation and Decking crews are beyond compare. Our high expectations based on reading customer reviews prior to signing the contract were greatly exceeded. I honestly cut off all other bids after my first meeting with Q. Nothing was impossible regarding the re-decking portion of the project based on Claudio and Ulbaldo's expertise.

MHx Designs is a contractor you can trust in a world where there are so many contractors who not looking out for the interests of their customers. The commitment to quality and design was top notch, and the office and project teams were incredibly courteous throughout the process. I would highly recommend them if you are looking to replace your stucco with Hardie siding and installing new windows.

MHX Designs is positively the best James Hardie siding installer we could have found for replacing our 25 year old vinyl siding. Our house looks GREAT. They also installed new GAF Timberline shingles on the roof, added overhangs to all our previously flush gable ends, swapped positions of a large window and a sliding glass door to make our home more functional, added a stone chimney for our wood stove, added a portico roof over our back door, etc., etc.. All their workmanship is top-notch and we would confidently recommend MHX to anyone.

I am very satisfied with my selection of MHx Designs for the removal of Stucco and replacement of siding on the entire house. Out of many quotes received, MHx Designs was the only company to take the time to meet with me and explain the different options available and walk me through the process step by step. They were very professional and safe working during the pandemic, and I would strongly recommend to anyone wanting similar work done.

All MHx staff were professional and courteous. Andrew Kim's communication skills were excellent. He kept me informed on progress of work completion on a regular basis. Job site was safely maintained and clean-up was excellent. This was somewhat a unique project in working with the seller and buyer of the house. Buyers were very please with work performed. Reports were comprehensive and very helpful for re-inspection and the settlement process. Would highly recommend

Nov 09, 2019

My search consisted of finding a contractor who had the experience, knowledge and commitment in stucco remediation and window replacement. I went through a very stringent contractor selection process in stages and then narrowed it down to 3, then 2 who underwent an intense interrogation process. I chose MHx due to 1) the details provided with their quote 2) their ability to answer my 20+ documented questions (answered in detail), 3) their BBB rating, 4) their on line reviews and references (all excellent) and 5) my comfort level knowing this company could do the job and do it well. My project manager, Andrew Kim was ever so patient and always took the time to explain in detail EVERYTHING! An email or text message never went unanswered but more than that, he took the time to understand me. This went a long way with my trust in MHx but more importantly in Andrew as he always had my best interest in mind. The project finished on time, without issue and the workmanship is outstanding down to the finest of details which included James Hardie and Vinyl Siding, 29 New Windows and 2 new Skylights. I couldn't be more pleased with the end result and I highly recommend MHx. THANK YOU ANDREW AND MHx!!

Coopersburg, PA
Oct 29, 2019

When we realized that we had a problem with our stucco, we researched a half dozen contractors as well as numerous options for remediation. We knew right away when we spoke to Andrew that we were dealing with an entirely different level of contractors/builders. MHX is a finely tuned operation, from the planning phase through execution to clean-up. We've been homeowners for over 30 years and have dealt with many projects and contractors in that time. We've usually encountered some sort of issue, controversy or disappointment. We can honestly say that we've never had such a positive experience as we did with MHX. We highly recommend them!
