REVIEW

I am very disappointed with Morgan. Not only did the sales person, obviously, listen to what we needed the wrong material was ordered and delivered. I am satisfied with the material as it was an upgrade from vinyl. The problem is now we have to hire someone to paint our house. Also one end of our house looks unfinished. I felt the installers were great! I would recommend them but not Morgan Exteriors.

The salesperson was very helpful through the permit process with working out issues needed for the approval of the permits. I never saw or spoke with him after that time through the construction phase or the finish process. The office staff always answered our questions or returned our calls. The Project MGR. was very helpful during the permit process but when it came time for the install dropped the ball at the start of the construction. The installation started with new windows and Morgan's Install staff did a fair job but didn't prepare the windows properly for the siding crew. They didn't set the windows at the proper depth for the siding crew. The sub contractor crew had to remove the old siding, install insulation, sheathing and Hardy planking and did a wonderful job. The property was cleaned every day of nails and debris. The painting contractor also did a great job. The job turned out very nice we are happy with the final project. We had a few broken windows at the window install. The replacement windows were opened at the job site to find they were also broken, reordered and after 4 months are finally being installed.

Morgan Exteriors did an amazing job on our siding, soffits, and fascia replacement. Rolando is a true craftsman and would highly recommend his services every time. I made changes to the original agreement and they were happy to accommodate our needs. Morgan lives up to there A+++ rating.

I have construction experience and a very high standard. I was more than pleased and they easily met my expectations. Very professional and knowledgeable. Great job of cleaning up. They definitely went the extra mile to make it perfect. I highly recommend this company and I would use them again, without hesitation. I couldn't have done a better job myself. Thank You everyone at Morgan Exteriors.

REVIEW

Bary D.
Riverview, FL
Nov 14, 2019

High Quality Windows and Doors. Installers were excellent! Communication was problematic. just prior to installation until my sign off of the work. After inspection a finisher was sent to cover screw holes and install trim. He did not have enough material to finish. Instead of going back to the office and letting someone know, I had to call 3 days later to get the parts needed (plastic buttons to cover the screw holes, which I offered to put in myself) It took me at least 5 phone calls and over 3 weeks to get what I needed. Promised receipt of materials and shipment were not met! No phone call letting me know they had a problem. Up to me to call, call, call! As I said poor Customer service. God forbid I have a warranty issue/problem. After the amount of money I paid for the new windows/doors I expected more. Do I recommend, yes. Just be aware you have to stay on them to get the project finished!

Tampa, FL
Nov 12, 2019

They were very clean. You would never have even known that they were here because they cleaned up so well. They wore shoe covers and were in and out so fast. I was amazed at the quality with how quickly they got it done. They knew what they doing, even with our difficult hard, high window. I am disappointed that the windows are so efficient that I do not even hear the rain or wind chimes! It is also cooler in the rooms.
