"wow" Why would you use anyone except Weathersafe. I had some concerns about the roof they installed in July of 2019, Mike and Travis were out the next day. after their inspection they determined there were some technical and installation problems. Without me even asking they decided to completely remove the 38 squares at no cost to me. Could not be more satisfied with the completed job one week later.

Will never refer weathersafe to anyone. My roof was horrible trying to get it repaired after the contractors screwed it up. Yes windows and siding was better but then again the told me they were looking for an electrician to come out to put back on my lights. They found no one....wierd how I could find a ton of 5 star ones in my town but ended up having my dad out. Dont waste your time with them weve told all our friends, family and friends of friends. Josh our sales man was AMAZING to work with, Weathersafe the company is horrible.

*Comment from Weathersafe Restoration Inc.*

Danielle, I apologize that your roofing project didn't go as planned, however, we're glad that we were able to resolve the roofing issues. We're also very pleased to hear that your windows and siding projects went well. Thank you for your feedback. Have a wonderful day and thank you for your business!

They should follow the instructions that they give to the customers so that there is not any hassle. They should be honest and come out front to show the estimate before starting on the project.

Top Notch Company! We would recommend Weathersafe Restoration to all our friends and family. After a tree fell and went through our roof, we contacted our insurance and a local contractor in the area, after several weeks of waiting and poor communication with our original contractor , I thankfully heard of Weathersafe. We contacted Mike , he was very knowledgeable, friendly, professional and they met and exceeded all our needs and expectations for our roof and gutter replacement. Mike came out the same day and put a temporary patch on (since there was a solid stretch of rain and snow coming) and they were out in a matter of a week to replace. We are very satisfied with our experience and are thankful to have found them!

Mickey was exceptionally accommodating and went above and beyond. I can't say enough about him! He listened to our needs, our concerns, and our situation and was attentive and cooperative with everything we needed done. The guys at the site had their safety gear on and were all working hard. The foreman had everything under control and was organized. We're very very pleased!

Weathersafe Restoration Inc. was extremely easy to work with. They use only the finest quality products and all employees whom I have interacted with were exemplary in communication and work done on our roof. My insurance company was difficult in providing accurate and necessary information needed to finalize this claim but Weathersafe Restoration Inc. was extremely patient and understanding during this process. I highly recommend Weathersafe Restoration Inc. for your roofing needs.

Bill Pooler was my sales person. After I had experienced 3 other businesses for the roofing work did I find Weathersafe Restorations. The internet was my introduction to Weathersafe and then Bill Pooler made it all easy for the restoration of our home. I can't thank Bill enough and we are so pleased with all of the people that worked on the project.

We thank you for your professionalism and high quality job your company did for us. We appreciate your attitude toward this work-your cooperation, sense of pride in the work that needed to be done and the manner in which you kept us apprised at all times. This was truly appreciated and we would not hesitate in referring WeatherSafe Restoration to any person who needed roof repair, windows and siding. Your crew gets an A+ in service, attitude, work ethic and above all craftsmanship. Their attention to detail was fantastic!!!You have no idea how grateful we are! Should we ever need your services again, we will definitely be calling WeatherSafe Restoration!

Homeowners need to be very careful. Get everything resolved with the insurance company and the contractor before starting the work so they don't come back and start readjusting the invoice with the insurance company.
