★★★★★
They did a very good job. The hardest part was the time frame, which was a bit too long. Due to the hurricane and being swamped, we did understand. Their workmanship was excellent. They advised me very well. I would definitely use them again!

They were lot of fun to work with. They took their job seriously but still had time to make the customer happy. The quality of their job was great! When it's all said and done, the way it looks is phenomenal. They did such a beautiful job. It is easy to recommend them to others because of this.

My wife's boss referred us to them. I have actually built over 200 houses in this area and White Aluminum was one of the finest companies I've ever worked with.

The sales rep is aware of it but we have a gazebo for the grill; the way it was designed, when it rains, the rain falls straight down. The original person who did the job was able to fabricate a little gutter for it. That was the most pleasing experience for us. It was very innovative of them and very pleasing to us.
