Quincy (and the entire Allison team) was outstanding to work with on our project. He provided advice and listened to our desires as we planned the project; and execution was on schedule with a high concern for a quality job. We are thrilled with the result.

We have surveyed customers on behalf of Allison Landscape & Pool Company in Sherman, TX; Durant, OK; Kingston, OK; Mead, OK; Denison, TX; Kenefic, OK; Pottsboro, TX; Ardmore, OK; Boswell, OK; Paris, TX; and 7 other cities in Oklahoma and Texas.

Allison Landscape and Pool Company are the gold standard in pool design and build! Their design and workmanship are exceptional. Their attention to detail, craftsmanship and pride in work have them standing head and shoulders above their peers. There were other pool companies that bid the project at a lower price, but I am confident we would not be as satisfied as we have been by choosing Allison Landscape and Pool Company.

Allison was extremely professional and provided great value for the money. We would highly recommend them for landscaping, sprinkler and pool. Quincy was very professional and easy to work with. He made recommendations for things we didn't even know we wanted. We agreed on the budget and work to be done up front and they stuck with the budget even going above and beyond on what needed to be done. We had several different crews come to work on our project and everyone did a great job. Their customer service is top notch. We would highly recommend Allison Landscape and Pool if you want your job done right.

I highly recommend Allison Landscape & Pool Company. They built our pool at our lake house where daily supervision by me was impossible. They took care of all problems timely and came in at or below budget. They kept me informed and the final product was beautiful. My family has never spent so much quality time at the lake since Allison installed our pool.
