Great crew, great product. My only complaint was that some of the finishing caulking was a little sloppy.

We were most satisfied with the quality of materials and workmanship. It was a far better job than I could have expected from another contractor interviewed or have done myself.

It was an overall great experience. They did everything that they said they were going to do. My bathroom looks much better than I thought it was going to look, so my wife and I are very happy.

I am extremely happy and really enjoy taking my shower. Before, it was a real challenge . Now I enjoy every aspect of it, including the tilted mirror and other touches which are awesome.

Both Lead installers were very good, and I would recognize them for the way they were able to handle the tasks (helping out in family emergency)and their expertise on the job.

Andy and Zac were so outstanding to work with and they took their time to explain the process. Bree was also very helpful with coordination.

I had been looking at tub replacement for a long time but it seemed that the people I talked to wanted to do it their way only! The crew at Bath Planet listen to me and worked with me and I got the shower of my dream's. Adam the young man that did the installation couldn't have been nicer or more concerted! And he did a first class job all the way! I just don't see how I could be happier with my new shower! Thank you all. I feel I was lucky to find your company! Ms. Jon Teivlle.

People come over just to see my mother's bathroom. It's perfect for her. The equipment is great because the wand can be adjusted for someone taller and the seat flips up so if she has company they can move it to have more room in shower. All three of the people involved did an excellent job. They were very professional and on time. The middle guy got the work moved up to earlier date. If there was a day that I wasn't there, he would call me and tell me exactly what was going on. They did everything right the first time. They were very good. The only part that didn't make sense was that after we had already scheduled to have the shower installed I kept get called to ask if I wanted to get their product, when I had already bought the product.
