I did a lot of research before selecting Best Investments for my siding project. They were very professional, clearly defined what they would do and what the cost would be. They delivered on this and the price quoted was what I paid. Their crew and project manager showed a lot of experience and remedied each problem and issue as they invariably come up in a project like this. I would definitely recommend them to my friends and family.

Feb 08, 2019

I was quite impressed with the superintendent on site. He made certain everything went well and the fact that I didn't have any negative comments about him, he did everything they said he was going to do. It has to start from the top, for the manager or owner to have someone on site like him. I was quite impressed with the whole organization.

My wife and I were extremely pleased with the entire process of the re-siding / painting of our home. (from the initial sales call to the finished product). We felt like we had a brand new home on the exterior once the project was completed. Excellent work quality. Best Siding made this process very pleasant. Thank you Jerry and Victor.

I could not be happier with Best Investments Siding and Windows. They have met or exceeded all of our expectations. The crew that they have working could not have been better. They were nice and friendly. I'm a photographer, and I wanted to do something nice for them before they left, so I did a portrait of them.

The company presented themselves as being professional and experienced. They were unorganized, unprofessional, and did not respond to repeated attempts at contact on my part. Their construction teams were unorganized and they were unable to complete the work in a timely fashion.
