Wonderful service from start to completion. At first meeting, Kyle carefully explained in detail the options and available choices. He even came out on installation day to make sure everything was in order. We were provided weekly updates on progress and projected timeline for installation. If quality is important in planning windows, Clarity is the best choice. Eric and Allen went above and beyond on the installation.

20 years in this home with many replacements. Clarity Windows was the best in every way possible. 5-STAR isn't close. 10-STAR is our rating. From start to finish the installation crew professional representing the company they work for and the completion of the job these are truly the very best window company in the business. We salute Clarity Windows. Thank You Broadhead's

Everything was great. There was a minor with the schedule because the product wasn't ready. Which that doesn't reflect on their performance. It's a 5 stars all the way.
