The group of men and women who worked on our bathroom project were true professionals. We will work with them again. We highly recommend them to complete any work that needs done.

Professional, punctual, and quality work!

Scott Conner was very nice and knowledgeable. He saved me money by suggesting something that worked as well and looked nice without me having to replace stuff I didn't need too.

Paul who was our provider at Coors did an excellent job and other people who saw his work commented that it was excellent. I would give Paul the highest recommendation!

I used Coors for two projects and am thrilled with the results. The end results are better than I envisioned and while neither were inexpensive, they were both worth it.

I use Coors Remolding for all my interior and exterior needs.

Coors Remodeling is a top-notch and trustworthy company that will value the vision you have for your project. We merely had a rough idea of what we wanted our kitchen to look like. Coors came in and helped us smooth out that idea with three different computerized designs from which to choose. Michelle even worked with us to adjust one design to suit exactly what we wanted. Coors ended up moving our entire kitchen from the front of our house where it was in a very small space to the back of our house which offered more room and greater functionality for entertaining. This required them to knock down two walls, place a beam into the attic, and rework the side entrance to the home. This was no small job, and Coors handled every piece of it with professionalism and precision. Their problem solving skills and attention to detail definitely showed throughout the project. The crew that Coors Remodeling hires is amazing! My wife, 10 year old daughter, and I felt very comfortable with everyone who had a hand in our new kitchen. Over the course of the project the crew became an extension of our family. We plan on using Coors in the future to install a new front door and reworking the entrance way complete with a front porch. If you want a local company who is dedicated to the vision you see for your project, as well as our community, Coors Remodeling is hands down the right choice! Thank you Bart and Michelle Coors for creating the kitchen we have always wanted!

Sep 21, 2016

We appreciated the options that were presented to us to solve our siding issues. The cost that they presented to us were competitive with other bids that we had received. We selected Coors because they had replaced our roof a few years before and we knew that the job would be done well and on time. We are very satisfied with the quality of their workmanship.

Coors Exteriors installed metal roofing on my home and their work exceeded my expectations. They fixed problems that I didn't see and the roof is beautiful! It's the thickest metal available so it is resistant to hail damage. They also installed new 6 inch gutters and I am very happy with that, too. Their crew is very experienced and professional. They are an honest and local family owned business. You can't go wrong with Coors Exteriors.

Coors Exteriors is the last call you will need to make when you seek home improvement and renovation services in the Lafayette, IN area. They installed 19 new windows and whole house insulated siding. A few hidden structural matters were discovered during the project, and they were addressed promptly. The work crew members were timely and efficient. They always maintained a clean yard at the end of the day. We are very happy with their services and look forward to engaging them again.

Feb 24, 2016

I'm an Architect, when we contacted Coors we had a specific look we were wanting for our contemporary home. The salesmen put the material and application details together for us. The quote was very competitive and when it came to installation attention to detail was very easy to see. Today we have a great looking standing seam metal roof that will last us well beyond our years.
