Never had a contractor that performed as well a A Molly Company. The project manager was always available whenever I called with a question about the project. They showed up on time and the workmanship was perfect. They cleaned up after each day of work. Could not ask for a better company.

A. Molly Company did the work that another company left hanging. They did a wonderful job and their employees were very friendly and still were professional.

I was not happy with the quality of work. Remediation for a water leak was not thorough. Requested insurance to send another company out. Due to their not being thorough, we lost the sale of this home.

Sadly, things were going along fairly well until the last project which was messed up. Now I have a ruined wall and marked up floor and no returned calls.
