

CUSTOMER FEEDBACK REPORT *for*
All Decked Out Inc/Keefer Contractors

REVIEW

Tom H.
Westerville, OH
Feb 09, 2019

Tony Keefer was very knowledgeable regarding the entire project and his prices were very fair. When we asked him for his opinion, he was familiar with the products and gave us pros and cons for those we were comparing. He did not try to lead us toward one particular product. Even though it took us a while to do our own research and make our choice, he was VERY patient with us and never tried to convince us to do more than we needed. There were very few additional charges, only for a choice that we made, or for an unforeseen "surprise". All of his people/crews were on time, were respectful and appreciative of anything we offered them, did not use any inappropriate language and cleaned up after themselves. We were very pleased with our project which included a new roof, new skylights, new downspouts and gutters, new siding and a few minor outdoor repairs. I would highly recommend Keefer Contractors.
