They did an outstanding job on a neighbor's house, which is why I chose them. Mine was outstanding as well. Now another friend is hiring them as well.

★★★★★

They did a good job overall. The only issue I had was the picking up of nails from the driveway/lawn. They came on a Mon and Tues and couldn't return until Friday due to weather. I found multiple (20+) nails on my driveway and lawn on Wednesday. They should have done a full cleanup if they knew they would not return for a few days.

★★★★★

Overall, we are happy with the work that was done. It took a little longer than we expected, but in the end, we are happy with the work.

★★★★★

They were friendly and I believe they did a great job. I am the third member of my family to use them for a solar project and no one has been sorry for that choice yet. My brother had a panel go bad. They sent someone out to swap it out quickly. We get to turn our system on for the first time today after work and we're excited!

REVIEW

Peter L.
Gloucester, MA
Feb 02, 2019

Apex exceeded my expectations in all aspects of the project. The office staff was excellent at managing the finance/regulatory stuff, keeping me informed as they took care of almost all the details. The project manager kept me updated frequently and installation went smoothly. The only hiccup was an extended wait to get the final meter installed to start generating power but this was due to local utility issues.

Aug 03, 2018

Apex is a phenomenal team to work with, hands down thrilled with my decision to go with them. All my expectations were beat. They took good care in all steps of the process and made process as easy on me in the meantime. Quality product from experts that will match your needs and exceed expectations.

Saranac Lake, NY
Jul 23, 2018

My new roof installed by Apex Solar Power's Roofing Division looks great! The local sales representative was knowledgeable and pleasant to work with. The roofing installation team did a professional job of removing the old roof, making needed repairs, installing the new Owens Corning Roofing System and cleaning up the worksite.
