We were very pleased with the entire job from our initial request for an estimate to the completion of work. The painters were very meticulous in their prep work and trim painting. We are planning on using Fresh Coat again in the near future.

We had just a couple of bumps with getting a color match to our siding but otherwise a completely smooth process. I highly recommend Fred and his team.

West Chester, OH  
Mar 05, 2019

Fred and his team at Fresh Coat Painters were extremely professional and friendly. I felt that they did a great job at a completely fair rate, and I was also very happy with their ability to work around my schedule. I would absolutely recommend them to friends as well as hire them again for myself.

### REVIEW

Amanda T.  
45208, OH  
Oct 04, 2018

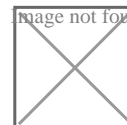

I has a small job of tearing down wall paper in part of my kitchen, repainting the wall, ceiling and paneling. Fred, Business Owner, was very pleasant to work with; however, the worker made a complete mess in my house. Unfortunately, i did not notice most of the issues until after I had paid. He splattered paint on my new countertops and did not clean. He did not cover surfaces or isolate the kitchen properly. A layer of sanding dust coated most of the downstairs and i found paint smears in random places not in the kitchen. The worker also used our tools (sander, scraper, cleaning tools) which i have never had a worker do. I found our bathroom scrubber brush in our front bushes. We also discovered 2 weeks later that he had used our hose and did not turn the water off all the way so it was leaking for 2 weeks. The painting on the paneling is also very poor. Their are smudges and drips and I will have to do touch-up.

Comment from Fresh Coat Painters of Anderson

Thank you Amanda for your feedback. This specific employee is no longer employed with our team. He has failed to live up to our standards and your review solidifies our decision to let this individual go. I have reached out to you directly but if there is anything else we can do to make up for this mistake please let me know. Again this is not acceptable and I wish I would have known of this issue during the project.
