Upon my initial meeting with Valerie, who is also the owner, I was so impressed that I didn't get any other bids. I am glad that we chose her company. It was so nice to work with a woman in construction, for a change. That was a selling point in the beginning. I am very happy with our decision and am very pleased with the work.

Valerie and her team, specifically Lou and Paul were fantastic. The job was done well, quickly, and efficiently. Communication was always clear and they adhered to the timeline. When there was a small issue, it was resolved immediately and with great professionalism. Looking forward to working with FCP again in the future!

• Overall, decent company to work with. • Painters were very friendly, thorough & meticulous with their work; great attention to detail. • Only gripe, pricing could be more competitive. Especially since we provided the paint.
