This was the BEST experience! Ryan was knowledgeable and helpful, and he knows absolutely EVERYTHING about paint. We had really dark, red brick in mixed textures with some areas smooth and some areas so rough they would snag your shirtsleeves if you walked by too close. Ryan's team used the correct primer to seal the brick and then offered me some excellent options in paint. I selected the Rain Refresh and so far it has lived up to its name! If I get dirt from planters or bug/bird messes on the house or trim (even the gutters!) it sprays right off with the garden hose. I also have a deck with a lot, I mean A LOT of railings and their estimate beat a competitor's estimate by almost half. If you want friendly, professional workers, who are the same guys and gals every day of the project and take pride in their work -- and have their supervisor/project manager onsite the whole time helping out, you must use Fresh Coat of Chattanooga. I'll be booking them soon for my next project!

I have had issues where contractors do not even show up on appointments. Some of contractors left without completing jobs. However folks at FreshCoat were very quick in giving me estimate and completed the job within the given time frame. They cleaned the perimeter after the job. I am happy with the results.

They worked very hard to accommodate the varying construction that was happening at my house. They also recommended a very good workman to finish certain projects. I could not have asked for better accommodations for all that was going on. They made my house look 100 percent better.

Going into the project of painting the interior of our home I was very concerned it could/would be done to our satisfaction. But we can say it was done on time, in budget, and with great care for us, our home, and family. Cameron was completely involved from day one and was on site each day his crew was here. We have already recommended Fresh Coat Painters of Chattanooga to two friends and if asked in the future we will by all means refer friends and family to Fresh Coat.

If anyone is looking for a painting contractor, I would like to give a recommendation to you. FreshCoat Painting just finished painting our house and did an excellent job. They are very meticulous in making sure that they cover all cracks or dents in the walls. (Meticulous is my wife's words not mine, I had to look up the word to spell it). We got three quotes and they were the best priced. They made sure everything was covered before they started. They use covers, but before that they put down brown paper to make sure paint didn't get on the floor or carpet. The quote included two coats of paint. We also had them do the trim. They were always prompt on arriving each day. The owner is a former residence of Sunset Ridge and a veteran. Before you go and hire another contractor, please give Cameron Lee a call. His phone number is 423-647-1005. If you would like to see some of his work, stop by our house and take a look, you will be impressed!
