Initially, we had started negotiations with another builder, but there was a conflict in scheduling. He recommended Ivan and Hawker Construction. Not knowing much about them, we were a bit hesitant ,but that was short lived. Upon meeting with Ivan and his team, we knew we were in great hands. We can't say enough about the level of professionalism, innovation and workmanship Ivan & Chris, Hawker's foreman, brought to our project. For most of our remodel, we were in another state and we were able to communicate our design vision, wants and needs effortlessly. We can't say enough about them both personally and professionally.

Ivan and his crew repaired the damage created by an upstairs water leak. Ivan's employees are professional and courteous, the results were great and completed ahead of schedule.

Ivan Hawker and his team do a superior job in making sure my kitchen remodel got done in a timely fashion. They used very high quality material at an affordable price. They ensured that the work area stayed cleaned and that we still had some of our basic kitchen necessities available to use. They followed up for 6 month to make sure I was satisfied with all the work.

Hawker Construction, Inc., came highly recommended from a well known architect in our community. My husband and I hired Hawker Construction, Inc. to do a complete remodel of our Master Bathroom which was completed in a very timely manner. The quality of their work is impeccable. It was a pleasure working with Ivan Hawker and his employees. We would hire them again in the future without reservation. They are the best!
