I would like to recognize the gentleman in the office who walked me in the back and wanted to show me the different products and ensure that he answered my questions. He was of medium build, with black hair. He wasn't sure what the price was, and the lady double-checked. I told them that I was going to pick the lowest price and they priced it properly and seemed to care about helping me.

I would like to recognize Will, the guy I talked to who came out and did the estimate for me from McDaniel Window & Door Co.. He got the project going. There were about four or five people who came out here and all of them were good. I can't remember the name of the guy who was working over the crew, but he was especially good.
