Our salesperson seemed to be very knowledgeable and honorable. I felt comfortable with him, so that is why we went with One Water Systems. It seems to be a very good product and it is important to be able to work with someone you feel at ease with.

One Water Systems had received fantastic reviews online that I found during my research prior to purchasing. Some of those reviews seemed a bit "too good to be true." Now that I've purchased one and gone through a transaction with them I can say that all of those rave reviews were absolutely spot on. The company is easy to work with, the staff is pleasant and knowledgeable, the system works beautifully, and the price is fair. I'm another happy customer that will refer others to One Water Systems any day.

I've been really happy with the water. It's delicious. I feel safe drinking it. I really don't know why everybody doesn't get this. It's a very good investment.

I was most satisfied with the quality of the work and the savings I am getting from no longer buying bottled water. I think that in the long-term the softness of the water will also be beneficial.
