★★★★★

Patio Pools built us an outstanding swimming pool with all the characteristics we wanted, and we've been using it for 10 years. They also have been caring for the pool in recent years with a weekly maintenance person, who consistently does an outstanding job.

★★★★★

The designer was informative. The project manager and the designer promptly responded to our concerns. The owners, Gene and Nicole Ragel also promptly responded to any questions we asked. Gene has a wealth of information that was valuable to us. The work was completed efficiently and in a timely manner barring unforeseen circumstances. The work area was kept clean at all times. We have a tight entry way and the truck drivers maneuvered their way into the yard without destroying anything.

We had a great sales experience. The spa came as promised and the set-up went better than expected. They explained how to use all of the products very efficiently. The whole process was done professionally and we would recommend them to anyone seeking a spa.

I would like to recognize Craig on the installation team, who was very agreeable and diligent about attempting to resolve my technology issues. Also, I would like to recognize the woman who manages the installation and service calls. She was very responsive and diligent in getting the installation crew to respond to any issues that I had as necessary.

Patio Pools & Spas

REVIEW

David V.
Tucson, AZ
Apr 08, 2014

At the start of the project with Patio Pools & Spas Jet Larson, our designer, was kind and showed us the designs that they offered. He showed us different textures for the pool and explained everything and how things worked. He was courteous and answered any questions that I had. The project manager, Steve, was really good. He advised me of things that they could do. He also explained how the digging, water lines, and electrical lines would be. He asked how I would like things so that it would be more comfortable for me. I asked that they would close the gate so that no one will come in and get hurt and they made sure to keep it closed from then on. After the project was done Steve was very helpful on telling us how to figure out how to work the pump. Overall, I am very pleased with their work.

★★★★★

Our pool is beautiful because every one in your company did exactly what they said they would do. That, along with your customer service makes it easy to see why one of our friends recommended Patio Pools to us.
