I've been dealing with Rachel about an issue I've had recently with my hot tub chemicals. She went above and beyond to rectify the issue! We've had our hot tub for almost 3 years and she finally told me the proper way to do the chemicals! The install guy had told me all wrong directions, so now it looks perfect, finally!! I will only deal with Rachel from now on as she truly cares about the customer! Only person at Poolwerx that feels this way! Keep up the good work and thank you for being so helpful!
