They did me dirty. They have not finished the job and they have been working on it since February.

I cannot brag enough about the quality of the workmanship, they are fantastic. I had a construction crew come in before them to remodel my bathroom and it was a compete nightmare, but Mr. Dawsey and his crew did a great and fantastic job. My home is beautiful, there is no way I could be more satisfied with the quality of work he did on my home, it is not possible. I highly recommend them to my friend and coworkers. This guy really knows what he is doing.

They did everything they said the would and more. They got the work done on time, and our floors came out very nice.

They greatly surpassed my expectations. They went above and beyond and did even more than they needed to do. They cared how I felt about everything. They were professional, kind and courteous. I couldn't believe that this Company could be so stellar. I would recommend them to anyone in a similar situation and I would certainly use them again.
