We are first-time pool owners, and really did not know anything about pools or pool maintenance. PWP&S has been extremely helpful to us, and extremely patient with lots of what must seem like really elementary questions. The owners and employees are the nicest people, always making us feel like we are important to them.

I have been using Pure Water Pool & Spa for about a year and couldn't be happier. After servicing the pool myself for the first two years I decided it was time to hire a pool service company. I called a few different pool companies but after speaking with the owners of Pure Water Pool and Spa, Laura and Robert Hill, I scheduled an appointment to have them come out for an initial consultation. Both Laura and Robert arrived for the consultation and they couldn't have been friendlier, more professional or easier to deal with. I decided to use their company and never looked back. Anytime I have ever called or had an issue related to the pool, they were responsive, attentive, and always took care of the problem.

Before we found Pure Water Pool & Spa, we had been through several pool maintenance companies -- none of which were very professional. They missed schedules, let the chemicals get out of balance, and didn't know how to work our new Pentair controller and chlorinator. Pure Water Pool & Spa is a breath of fresh air -- they are 100% professional and knowledgeable about pools, spas, and all the latest equipment. They are always right on schedule and they keep our pool always looking great. Since hiring them, we've never had a problem, and they have my highest recommendation.
