Everyone they brought in was good people and professional. I work for the sheriff's department, and I would let them go into my house when I wasn't there. They locked it back up, and I felt safe. Rainbow International is blessed to have those kind of people. You don't see people like that often.

I had no idea what a pack out was. But from my first phone call from Rainbow International I felt comfortable having them do whatever it was they were going to do. I can only say they exceeded my expectations by volumes. I now know what a pack out is and should I ever have to go thru what I did to put me in contact with Rainbow International, they are my first call. Job well done,, very friendly and very professional. Handled my furniture like it eD s precious metal. Thank you Rainbow International.

Rainbow gets a zero star. They are not professional. They did not clean as promised. They brought back dirty furniture. They had to reclean it onsite. It was a long process to get them to clean what was brought back. For the salvageable things, we did not get a good process of eliminating the things that should have been thrown away. We were done wrong as customers from that vendor. They do not do a professional job at all.

I was very satisfied overall. There were some things that I pointed out and they fixed it immediately. They went beyond what I asked them with the changes I was very pleased with how they conducted business. They were honest and worked with me on several things that we changed. It was a great experience.

Rainbow International help us out in a nightmare of a disaster. Our ceiling collapsed due to no known cause. The family was safe, but our nerves were a mess. When Jordan got his crew out, they amazed us at how quick and clean they got the room. I work in an industry where we have to refer customers for damage from soot, and I asked for a card so I could assist my customers. Thank you for rescuing us from this nightmare!

Lock your bathrooms so their employees can't use them. They defecated in my toilets with the water shut off so the toilets couldn't flush, and just left it.

Shreveport, LA

Jan 28, 2020

We had a sewage spill in a rental condo. We called Rainbow and they came the next day to begin cleanup. No estimate was provided regarding the scope of the project, the cost or the length of time it would take stating that would come from the office. It took three weeks to finish and we finally asked them to come get the fans that had been blowing for 10 days so we could proceed with the renovation. The carpenters complained about the quality of the cutout on the sheetrock and demonstrated why they had to even it out. When I called to find out what the cost was, I was at first told that they did not know and they would have to decide. Then I was told that most people don't care because the insurance company would pay for it. Then I was told that the cost was over \$14,000!!!!!! and just happened to be the exact amount of the insurance payment. When I complained to the insurance agent he talked to them and then stated that they told him it would be around \$7000 dollars. When I called to ask for an invoice, it took them a week to send it and could not tell me on the phone the amount. The amount at that time was \$10,456!!! The condo is 1000 Sq Ft. I was told later by the remodeler and an adjuster that the amount was very high for the scope of the job even considering that the damage was from sewage. We have paid Rainbow and we are very dissatisfied with the arrangement due to not receiving an estimate prior to the job and because we feel that we have been taken advantage of. Sorry. I don't TRUST them.

REVIEW

Russell B.  
North Chesterfield, VA  
Sep 20, 2018

I am very disappointed in Rainbow Int. If I had known this was going to be such a long and stressful deal I most definitely would have called someone else. I had water damage to my kitchen floor and Rainbow Int. was sent out by my insurance company (not my call). The young man showed up and set up his dehumidifier and fans. Then he left. I had to call them several times to try to get the drying of the floor finished and the equipment removed. I finally told them I was putting it out on the front porch. The four pieces of equipment were too big for my kitchen. OK, so this took about 3 weeks. Then the real fun started, dealing with the construction end of the company. The water mitigation was started on June 8, 2018, 1/2 of my kitchen floor is still torn up and has staples sticking up (can't walk around without shoes, and keep tripping on the flooring corners that are sticking up). Today is Sept 20, 2018, almost 3 1/2 months and construction hasn't even begun yet. I will never let Rainbow International near my home again, I will hire my own people. Don't recommend them to my worst enemy.

Aug 10, 2018

The first employee that showed up at our house, July 13th, was very courteous and hard working but he said that he did not have the authority to remove the wet carpeting( as stated by Allstate Insurance ) and it stayed on our floor until 2 employees finally showed up on Tuesday, July 17th. They worked very hard and removed the carpet and dried the cement underneath. During that time we had very wet carpet and a horrible odor.

Sneads Ferry, NC

Jul 10, 2018

The first rep was supposedly fired after the first month. Everyone was friendly and courteous -- the subcontractors were uniformly incompetent. The flooring place lied about the quality of wood we ordered and then installed it terribly. The plumbing was put back improperly and caused a new floor replacement. The electrician didn't insulate his work on the kitchen island. The painters missed many spots. The hero was a man named Marsh--competent , prompt, and friendly.
