Secured roofing replaced our roof after damage from a major wind storm and hailstorm. They worked with the insurance company and obtained information needed as well as approval on our behalf. Upon approval they not only effectively did their job, but they did it well. I would use them again if I ever was in the position to do so.

They wouldn't put anything in writing for a bid and they changed their phone numbers halfway through the job, so it was hard to reach anybody. It was not what I would have expected from a company that has been in business for as long as they have.
