Heather at Servpro was extremely helpful. She kept me in the loop about everything going on and what was going to happen. All the technicians were incredibly courteous, and kind. I can't recommend them enough!

We contacted immediately for water remediation, but seems we could have taken my time to find a cheaper company, because according to the employees everything was trash and everything had to be gutted. We had just remodeled that apartment and they threw out everything. The apartment is now in studs. Even stuff that can handle water like brand new fixtures and faucets were discarded. Every contractor I have reached out, for estimate, says they went too far and now we are seeking legal counsel as our insurance is not paying even half of the cost to repair and replace. I certainly regret hiring this company and would encourage anyone to look elsewhere.

Worst experience of my life. Literally made me physically ill dealing with a company you trust stealing your belongings. They actually from the first day did not clean anything. They were just sorting through things they wanted to take. So incredibly disappointed. Sorry for anyone who makes the mistake of using them.

ServoPro was extremely difficult to work with I had a difficult adjuster who was eventually fired, but ServPro was just as bad. They failed at almost every level of my claim. They came in with a very nice project person that inspected and went over everything. That was the only good aspect of that ServPro did for me. They quickly disappeared once the project started. There was little to no communication with me and my wife. Every time we had concerns, it was met with defensiveness. We did nothing wrong. There was no understanding of the things we were discussing with them. After we fired them, we had the opposite results from another company. The project person involved could not communicate whatsoever with us. As a matter of fact, he avoided communications after a while. They use improper mold remediation techniques. A lot of the failure in the claim, is they do whatever Alacrity software tells them to do. They are not transparent in how Alacrity Solutions is used to manage the claim. There is no cookie cutter approach to mold remediation and reconstruction. When issues are involved, especially when it involves someone else. They were a total disaster. I would never use them again or recommend them to anyone. If they want to discuss it more to improve, I would be happy to talk about it. They have no idea how to handle contents that have been exposed to mold. Most companies say to dispose of different things and there is a way to clean contents. There are multiple approaches to it. I got full details from another company.

I would not recommend them to anybody, specifically with the office, not so much the workers. The lady in the office was very unprofessional. They called me on Friday, but they didn't show up, and I called on Monday and was never give a specific time. When he came the first time, which was once for the demo, and said it would be so many days out. On Friday, they said they couldn't come out that day. I feel I should be at my house when they are doing work. One form was incomplete, and she told another lady I didn't fill it out, and she was unprofessional and a liar.

Our project manager, Doug, went above and beyond on every occasion. After an unforeseen event left us with a huge mess, Doug and his team showed up like heroes and made it all go away. Several times, he helped me more than he needed to. We are so grateful and will think of ServPro and Doug specifically when future repairs are needed.

There are slow to get the job done, and there were a  
lot of mistakes made. For the amount of money paid  
for insurance, it is not worth the experience because  
they don't complete the task. The completed tasks in  
our house is not great.
