Stoltzfus Bros. Construction did a wonderful job replacing our old roof. They identified the problems needing special attention - especially regarding a tricky chimney situation - and they did a great job correcting them. The crews arrived on time each day and the project was completed on schedule. The job site was kept very clean and tidy and when they wrapped up the project there was no trace that they had been here. I am very impressed with their work and I am more than happy to recommend this company to neighbors and friends in the area.

From Ally in the office to Ruben on the job, and to Chester as head of the project, every interaction was courteous and accurate. I could not have been more satisfied by their work. Each day the worksite was cleaned up and organized, and they always showed up one time.

Great experience from first call to completion of roof.
Crew was respectful of my home and were all solid
workers. Along with the very competitive price, the
overall service was stellar!
