★★★★★

This company was great to work with. The staff was very professional and I felt like I had an ear from them whenever I needed to get clarification or wanted to discuss the ongoing project. I am happy with the finished project I can't wait for the pollen in Va to cease so I can go out and decorate.

★★★★★

This was a very upsetting and aggravating experience from early August until early winter.

★★★★★

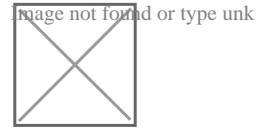

Total Remodeling Systems are very professional, reliable but I think that they should work a little bit on the price.

★★★★★

The experience we had was so bad that it would take too much energy to even write out all the issues we had.

I now have a beautiful sunroom, which a future owner may use for many different purposes and we will enjoy for many years.

★★★★★

Steven, the worksite manager, was professional and seem to do everything in his power to have our deck built in the time frame given. Other associates that we worked with were not as kind nor professional and they were not honest in their use of subcontractors.

REVIEW

Oct 05, 2019  
★★★★★

They were very professional. They got all the permits for the extension that they did. They worked very well with the building inspectors, and they got everything that was required done.

Mar 20, 2015

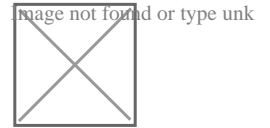

Considering they worked this winter, they deserve a 5. Due to the weather, this project should have been postponed, but they did it anyway and did a fantastic job!
