Installers Bernardo and Julio did terrific work installing our gliding patio door. The door was slightly damaged during shipping from the factory (hex nut head imprints on the frame); they advised me of this before the installation, called their supervisor, and Anderson offered to replace the door at no charge. Rather than delay the installation, they offered to repair the defect by covering it with wood moulding, which was a satisfying solution. Overall great customer service and professional installation.

Don with Andersen was my window technician today. He arrived early which was great. Very courteous and professional. Also want to put in a good word for the scheduler, Erik (sic?). He has the best customer service demeanor. He made a point to follow up with a appointment reminder call and left a message that was easy to understand. Thanks and Happy Holidays to all the folks at Renewal by Andersen.

We had to have our French door replaced and Anderson was there to help us make our choice. From the beginning to the end of the process this company was very professional and always on top of every detail especially Jacqueline in the office. Our installers Jesus and Fidel worked tirelessly through the day and completed our job within the timeframe they had given us. They helped us put our blinds back up after the job was complete. The doorframe had to be painted after the job and Frank D. got the painting done neatly and in good time. Workers from Anderson were all very professional and courteous. We would definitely use them again.

This is the second home Renewal by Andersen Windows have been installed, Colorado and now California. That should say it all. Repeat customer, so love these windows. The entire process from purchase to install to final paint and touch up services, perfect. And The follow ups from customer care specialist.

The workmanship on my new door was exceptional and the installation was clean, professional, done in a timely manner. The regularly scheduled touch-up following the installation was also extremely well done, and very effective. i will be returning to Renewal by Anderson for any future door or window needs.

Charlie Gindele was our salesman. I'm not familiar with Dave Stevens. Charlie explained everything to us and called several times to see if we were happy with the progress, even sent cookies that arrived before Mother's Day. I filled out a report and forgot to include his name, when he was the one responsible for the French Doors to begin with. Thanks again to everyone but especially Charlie.

We wanted a good quality dutch door that enhanced our view and stood up to the humidity by the beach. After meeting with the expert from Renewal by Andersen I was convinced they were the way to go. In terms of quality and value I couldn't resist. The people at R by A were 1st Class from day one to completion. The install was painless, professional and turnkey considering there was some demo. The door is stunning, better than expected and perfect in every way.

★★★★★

We've now used Renewal by Andersen to replace our main sliding door and our front entry door. Both projects went extremely well from initial measuring to final installation and touch-ups. We feel we now have very high quality doors and have been able to tell a big difference in comparison to what was installed previously. We live in a sometimes high winds area and these two "custom" doors now make a big difference. We love these doors. Thank you to the Renewal by Andersen team.

My overall experience is that it's a very good company but they apply pressure in order for you to purchase their products, the company is also expensive. I am satisfied with my door, however, if I knew the price prior, I would have looked elsewhere as opposed to paying 3 times more for my door.

Nov 22, 2013

Having the need to replace the entry way door and having seen neighbors on my street use the services of Renewal by Andersen of Orange Country I asked my neighbors if they were happy about their experience they said yes. I contacted renewal by Andersen of Orange County and visited them. I selected the door that I liked and they proceeded they proceeded to do what they they said they would do and did it when and how they said they would do it, which is not always the consumer experience today. I would rate the renewal by Andersen at the top of my list and a business to which I would refer to others.
