Nov 15, 2021

Everything went wrong and it took them a year to fix it. Terrible customer service. Things only started to happen after I informed them I would make a formal complaint to the BBB. They eventually started the job over and actually successfully installed my new doors. One of the worst company for customer service I have ever dealt with. A new excuse every time they missed a deadline.

The father and son team of Pierre and Patrick performed the installation like a well oiled machine. Very professional. Luc was very easy to deal with and was knowledgeable about his product.

This is our third experience using Douglas Doors & Windows, and we have been extremely satisfied each time. The quality of the sales team, the product, the installation & any follow-up services have been outstanding. We would highly recommend using their services for any door & window requirements.

The reason why I gave 5 stars is because of everything. The sales rep told me what was going on. And when to expect

Our experience with Douglas Window and Door was seamless. They are exceptionally professional from the sales department, office staff and installation crew. All schedules were adhered to and the job site was left clean. We appreciated the NO PRESSURE sales approach and the fact that they did not disparage other manufacturers to promote their suppliers.

REVIEW

Riopelle M.
London, ON
Mar 30, 2018

We were extremely satisfied with Douglas Window and Doors. This is a company that delivers on everything, from the first meeting to the final installation and follow-up. With regards to the service, it started with a sales person coming to our home. No hard sell, just a person who believed in the company and the products and could convey that. He explained everything in great detail. Measures were taken more than once and by more than one person to make sure the custom door would fit just right. The installers were professional and definitely knew what they were doing. They wanted the work to be perfect so they would not have to come back. There was a slight glitch by the Kitchener manufacturer on the door - not a problem by Douglas Windows - however the salesman pursued it with the manufacturer until we were all satisfied. We have done several major renovations recently and this company is the best we have ever dealt with. We have recommended them to everyone who comments on how beautiful our doors are. We wish more companies delivered like this one does.

It was a very very positive experience on all levels. We enjoyed it, and it wasn't inconvenient. It is a good product, we worked with good people, and they had a lot of pride in what they were doing. They were also extremely tidy, and very aware of anything that could help us.

I would like to recognize Christine and the head of the work crew for their exceptional service. The young man that organized the work crew was extremely aware of making sure everything was to satisfaction. He was also a very great personality as far as a service person. The whole work crew was very good as well.

The entire staff were excellent -- office, sales, installation. However we would like to thank Sean, the service manager. Sean was the person we met at the London Home & Garden Show (Spring 2016) with whom we had a lengthy conversation about products & installation. When it came time to obtain quotations, Sean was the one person that we remembered very clearly. During the installation process, Sean came by our home every day to ensure that everything was progressing as planned & that we were completely satisfied with the progress. We required a minor repair to one of our screens -- Sean ordered us a new screen, & came by to install it the moment that it was received in your facility. Sean's commitment to ensuring that our expectations were met was greatly appreciated.
