Bernie and his crew were amazing. They had to work around our family's remote learning, so they were in and out quickly. They had some obstacles in their way, but they were receptive and made the entire process quick and easy.

The project for our home consisted of the entire main area and stairs going down. 18' high peak in the ceiling, with the f stairs to the lower lower level right under the the peak. The work included 2 coats on the ceiling and walls. We are delighted in the finished product. The quality of work, clean up and attention to detail exceeded the majority of painting contractors, that I have used over the years both as construction project manager and home owner. I would be confident referring them to anyone.

I was extremely satisfied with the workmanship of Fresh Coat Painters of Lincoln. They explained the problems that I had with my soffits and gutters and recommended their plan to correct the problems. They kept me informed as to the date that the repairs would be made and showed up on time. There were no hidden surprises.

Quality work, good pricing, and willing to listen to us. Not pushy, either.
