Our house looked great when they finished painting, but five years later it looked no different than any other paint I used in the past. Large chunks flaked off, and fading, cracking and peeling was occurring throughout. Customer service had a prepared canned answer before even arriving to inspect the defects. How many customers actually had a Rhino Shield paint job last 25 years? None that I ever came across. How many negative reviews have they allowed to be posted on their site? Also, none. It's your money, if you want to trust Rhino Shield because of their false claims, go for it. If you want to see real life results of the product, you're welcome to take a look at my house.

There were some rough spots with rotting along the roof line and I was concerned about how it would be handled. The carpentry was promptly estimated, the materials as well, and everything was completed lightning fast at a reasonable price.

Fantastic Job! The house looks so nice that it should be on a brochure. The crew was extremely professional and completed the job in just one week! Plus I have the peace of knowing we will never have to paint again. RhinoShield definitely increased the value of our home!

I emailed pictures of the work site with all the damaged plants. The work was done very, very quickly and now there are bubbles and peeling of the paint. I emailed again but never got a response from you. They spent less than two days on the job and it was a man and his father and mother.

Blown away by the work of everyone at Rhino Shield!!! What a job they did professional ,neat, and done in three days. The crew I had was unbelievable!! The house should be in a magazine they did so well. Would highly recommend to anyone looking to add value to their home. Thanks Rhino Shield for a great experience.

Rhino Shield Northeast has a crew of 8-10 people who are young, energetic, and pleasant to have work on my property. They were especially happy to paint my house because we live in Cape Cod, Massachusetts and our home is colonial blue. They were really excited about the project and had a lot of joy when doing their work.

Steve left out many negatives and totally misrepresented the warranty.

REVIEW

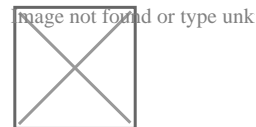

Lyman Y.
Quincy, MA
Jun 02, 2015

Before final walk through I pointed out things that needed to be touch up to painter. He said ok. As I walked around with Fabiano some of the painters were cleaning up and some were still painting. I signed the agreement after we walked around think that the painters had not done the touch up. The next day I checked and saw they didn't. I had called Fabiano and did not get a call back.

Administratively as sound as their craftsmanship!
They call you/email you very promptly, unlike many
other contracting businesses per past experience.

We are very satisfied. If anything occurs in the future
I have every reason to believe that Rhino Shield
Northeast would take care of the issue with due speed
and the care that they've already demonstrated. If
anyone would ask about the job? "I'd say come on
over and take a look and see it for yourself."

Rhino Shield is a great to work with. One has to
realize that they are professional and they do not
skimp on their products. If wood is rotten, it will need
to be replaced. There are a lot of steps involved.

great hard working crew and helpful office team . ..
the final appearance of the color and paint look was
good. .if the appearance holds-up for as long as
expected it is worth the investment
