This review can not cover the concerns we had and have and we got a master home inspector and still have issues. They are not the same as advertised, so do your homework. These reviews are not what we discovered.

I have found Harris Doyle to be an organization that is very professional in their building of homes and quality of staff. It has been a pleasure to own a Harris Doyle home.

How would you like if 2 weeks after signing a contract on building a home the company says: we need to resign a contract because the lot you picked up is no longer yours, therefore you need to pick up an another lot for a higher amount. No, we are not willing to work with such a dishonest and unprofessional company.

The building process is good. The people I am working with are great. The company policies and the process could be improved. The efficiency of building the home could be better. It seems that some of the homes have no work going on during the process. Overall, I am satisfied with the company.

So far, from the beginning process, working with the agent in the community all the way to working with our personal guide through the selection process, was outstanding and fantastic. We were treated very nicely. All around, the experience has been great! Now that we have started the building process, it's too early to see how that is going to go, but if it goes the way it has so far, then it should be amazing!

I was looking for a house to meet the needs of my family, and I was coming to the conclusion that we were not going to find the perfect plan. After touring a couple of builds with Perry, I found IT. THE ONE. The whole experience from design to close was fantastic. My family loves the location, the neighborhood, and especially the house. Thank you for building THE ONE!

We are early in the building process but the design stage was fantastic. Designer, Danielle, was very helpful and we feel confident we will enjoy the home she helped us plan.

Honestly the experience was terrific from the beginning with Diane to the design sessions with Danielle to the building phase. Chad was a great Project Manager and the entire team was impressive in terms of how they stayed in touch. I only had a few issues and they did a great job of resolving them.

I am thrilled with my new home. We are still waiting to have some things fixed. One new thing that just happened was a leak in the roof which has caused a crack in the ceiling but we have asked to have several things painted that have not been finished and a sink hole in the front yard that needs to be filled in. Hopefully that will all happen soon. Loved working with Jeff and Erin they were very helpful and kind.

I love my home in Keeneland Green, Pelham, built by Harris Doyle. It is spacious, bright and unique (although the morning traffic on Hwy 261 is too much to handle). We felt we are special customers after we received coffee mugs and picture frame as welcome gifts.

My wife and I love our home. I am not quite sure about the Warranty because we have not had to use it yet. I have heard from Neighbors that it can be tenuous at times. However, our punch list completed fairly quickly. Everyone has been professional and courteous. They know what they are doing.

I have some issues with the house that I'm in, I don't like how they don't follow the covenants. They don't make people keep their yards nice and tidy. They have some homes that look bad in this particular neighborhood. I can't get in touch with anyone in regards to the covenants. I live next to someone who's house is frankly embarrassing from the outside. I would recommend the builders themselves, but not this neighborhood. Their landscaping was also very poor.

This experience was very bad for me and my family unfortunately. We were given 2 different close dates and our home was not finish before either of them. It ended up costing us an additional \$3500 that we had not plan to spend with staying in a hotel and storage fees as well as paying for professional movers. We were not compensated in any way for this. This was an experience from hell.
